

# 12 Months to Self-Preservation Program 2023

When disasters strike, having a plan in place helps ensure a more successful outcome for you and your family.

Waterford Township is pleased to announce a partnership with Tenuta's Food Lane to help residents become self-reliant for the first 72 hours of a disaster. Each month through December 2023, Tenuta's will be selling a select item or type of item at cost. This will allow people to purchase and stock up on items that will help their family during a natural disaster. The products offered will include such items as cases of water, canned meats and vegetables, dry goods, pet food, batteries, etc. Whether you're a thrifty shopper or interested in helping your family become self-reliant, please take advantage of this program throughout 2023.

Don't forget to tell your neighbors and loved ones. Visit the Township's Facebook page and the website for monthly updates and videos [www.waterfordmi.gov/makeaplan](http://www.waterfordmi.gov/makeaplan)

March's discounted item is a 5 oz. can of StarKist Chunk Light Tuna, in oil or water, for \$.77.
