The following memo was received by Fire Chief Matthew Nye.

I am pleased to inform you that the Waterford Regional Fire Department (WRFD) has been awarded a grant from the State of Michigan Department of Labor and Economic Opportunity under grant number E20240295. The grant provides funding in the amount of \$335,241.74 for the acquisition of an additional full set of Personal Protective Equipment (PPE Turnout Gear) for each member of our department. This grant is especially advantageous as it requires no matching funds from Waterford Township, resulting in zero additional cost.

Keeping firefighter turnout gear updated is essential to enhancing the safety of our team members during firefighting and suppression activities. A full set of firefighter turnout gear consists of a helmet, protective hood, turnout coat, turnout pants, gloves, and boots. These components are designed to protect firefighters from extreme heat, flame, and hazardous environmental conditions. Turnout gear must meet strict standards for thermal protection, heat resistance, and durability to safeguard firefighters in various emergency scenarios.

Moreover, investing in current PPE not only strengthens the immediate safety of our firefighters but also represents a proactive approach to reducing long-term health risks. Each kit includes a heat-resistant rope or webbing system, a descent control device, and an anchoring component. These tools are compact, lightweight, and easy to deploy, providing firefighters with a reliable option for self-rescue in scenarios where exits are blocked or conditions become untenable.

Investing in Stealth Personal Escape Kits significantly enhances the safety and survivability of our firefighters. The benefits include:
