Supplemental Information

For variances to be granted, Section 6-100.5 of the Zoning Ordinance requires the ZBA to find that the APPLICANT has demonstrated that each of the six (6) specified review standards are satisfied. It is to your advantage to provide as detailed and complete a response to each question as possible. Additional sheets may be attached.

1. Explain how strict compliance with the applicable Zoning Ordinance Standard(s) would prevent the owner from using the property for a permitted purpose or be unnecessarily burdensome?

2. Explain how the requested variance will ensure substantial justice to the applicant as well as other property owners.

3. Explain why a lesser variance than requested would not give substantial relief to the applicant and/or be consistent with justice to other property owners.

4. Explain how the need for a variance is due to unique circumstances peculiar to the property and not generally applicable in the area or to other properties in the same zoning district.

5. Explain how the problem and resulting need for the variance has not been self-created by the applicant and/or the applicant's predecessors.

6. Explain how the spirit of the Zoning Ordinance will be observed, public safety and welfare secured, and substantial justice done.
