

## Waterford Township Policemen and Firemen Retirement System

### Summary Annual Report - December 31, 2019

#### Introduction

Dear Retirement System Member:

The Retirement System, which is managed by the Retirement Board, is designed to help you meet your financial needs you become disabled, retire, or die. ***The Township also supports a Retiree Health Insurance Program, which is separate from the Retirement System.***

The Retirement Board's responsibility is to supervise the general administration of the System and its assets. Our Board retains professional advisors to assist us in fulfilling these duties.

We have prepared this summary report to give a brief overview of the Retirement System and how it operates. However, a summary cannot cover all the details of the System, any applicable collective bargaining agreements, and the Retirement Board's official rules and regulations. Additional information about the System and its financial operation is available in the treasurer's office.

Your Retirement System's financial objective is to accumulate the assets necessary to pay the promised benefits in an orderly manner. To accomplish this, contribution rates are established in a manner that is designed to keep those rates approximately level as a dollar amount from year to year. Contribution levels are expressed in terms of percents of the Township's active member payroll, and provide for the payment of the required employer contribution in compliance with Section 20m of Michigan Public Act 314 of 1965 as amended.

To determine the appropriate Employer contribution level for the next year and to gauge how the System's funding is meeting this fundamental objective, an independent firm of actuaries and employee benefit consultants, Gabriel, Roeder, Smith & Company, conducts annual actuarial valuations.

These valuations are based on your System's past experience, information about current participation and financial markets, and assumptions concerning the System's future demographic and economic activity. The results of the December 31, 2019 valuation, based on the establish funding objective, are summarized in this report.

#### Actuary's Opinion

It is the actuary's opinion that the Retirement System is meeting its financial objective, based on continued receipt of the computed contribution, when due.
