HELPFUL TIPS

Helpful tips to keep in mind
when decorating your loved
ones marker.

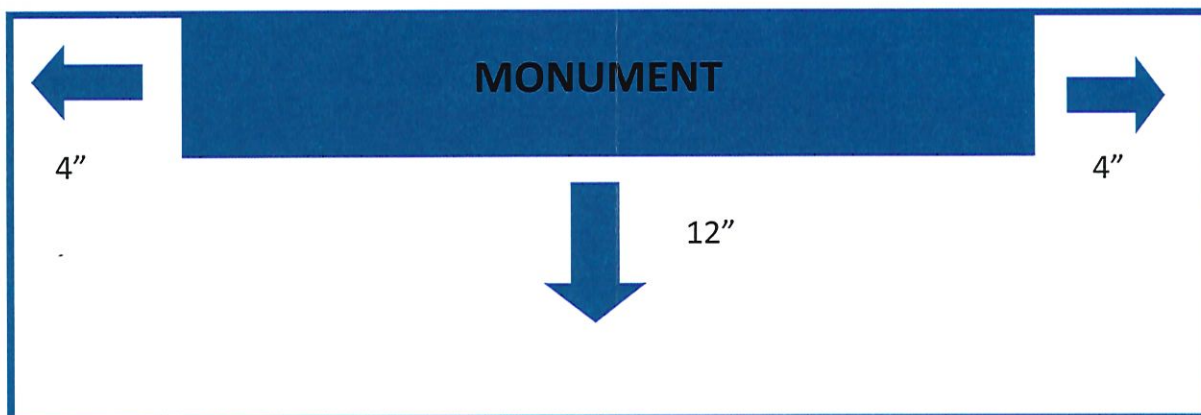

Plant deer and/or rabbit resistant
plants.

If you can't maintain it, please do not
plant it.

Use a leveled garden tile within the
flower area, to place statues, urns or
pots. This keeps them from tipping
and keeps grass from growing too
close to the base.

Do not leave anything of value (either
financial or sentimental) at the graves.
The cemetery is open at all hours and
we do not have lights or security
cameras.

If you do want a flowerbed, installing a
border helps to keep the mowers from
the flowers and makes your bed look
neat and well kept.

All plantings and/or decorations must be:

- On the grave only.
- 12 inches from front of marker & 4 inches on either side.
- Nothing behind the marker; including shepherd's hooks.
- No decorations on foot markers.

Please Remember-

- **No** plantings with thorns; including rose bushes.
- **No** trees, bushes or shrubs.
- **No** decorative stones or mulch.
- **No** glass of any type. Only plastic, cement, or resin is allowed.
- **No** alcoholic beverages.
- **No** artificial plants, flowers or decorations allowed between April 1st through October 15th.
