- C. All the program participants must recognize that softball can be a potentially dangerous sport and that injuries are common. These structures should be approached with caution.

ARTICLE XIV - PRACTICE DIAMONDS

- A. Due to the heavy game schedules on the Waterford Parks and Recreation Department fields, we **cannot** guarantee that teams will be able to practice on our fields.

ARTICLE XV - SCHEDULED GAMES AND MAKE-UP GAMES

- A. Teams will be scheduled to play a certain amount of games depending on the leagues they are in. This does not mean teams will play all games scheduled. If weather conditions dictate the cancellation of several nights of ball games and because of time, we cannot make every game up, some games that will have **no** bearing on the playoffs may not be made up. Games with playoff ramifications will be made up first and if time allows, other rainout games may be made up.
- B. Rained out games will be made up as soon as possible during the season if time permits. After the season has ended, two (2) weeks will be set aside for make up games that have a bearing on the playoffs. Games will be made up on the same nights teams play during the season. **If divisions have more than two (2) rainouts during the season, they may be forced to play make-up games on the two (2) weekends following the last week of play. Men will play on Friday evening or Sunday afternoon/evening. Women and Coed will play on Sunday afternoon or evening. These teams may also have their make-up games scheduled on another week night in order to get games in before playoffs are played.**
- C. **Games will be scheduled at the convenience of the Waterford Parks and Recreation Department and must be played when scheduled.**

ARTICLE XVI - WEATHER CONDITION POLICY

Games will be suspended by the umpire or park supervisor for the following reasons:

- A. Lighting has been seen and/or thunder has been heard. Each time additional lightning is observed or thunder is heard, the minimum 30-minute waiting period should be reset (ASA Guidelines).
- B. A tornado warning has been issued by the National Weather Service. Tornado or severe thunderstorm siren signals an immediate cancellation of the activity. If shelter is provided for all participants, they should be directed there immediately. If no shelter is available, participants should evacuate the area.
- C. A thunderstorm warning has been issued by the National Weather Service. We will monitor the weather conditions during the evening and if the National Weather Service has ended it's warning, games will continue, if not they will be made up at a later time if possible.
- D. Waterford Parks and Recreation Department Heat Index Policy will be followed.
