This Annual Summary Report of the General Employees Pension System contains a summary of our Plan's financial information as of December 31, 2012. It also provides you with a Brief Summary of Plan Provisions, summarized for each group of current employees covered by the Plan.

Retirement benefit information for retirees would be contained in the contract or policy in effect at the time of retirement, and may not be reflected in the Brief Summary of current provisions.

Also, please note that in subsequent years the Summary Annual Reports will be available on the Township's Web Page. This move is being made to save on printing and mailing costs. The report will be posted at:

I hope you find the report informative and useful.

# Waterford Township Employees Retirement System

Summary Annual Report - December 31, 2012

## Introduction

Dear Retirement System Member:

The Retirement System, which is managed by the Pension Committee, is designed to help you meet your financial needs should you become disabled, retire, or die. *The Township also supports a Retiree Health Insurance Program, which is separate from the Retirement System.*

The Pension Committee's responsibility is to supervise the general administration of the System and its assets. Our Committee retains professional advisors to assist us in fulfilling these duties.

We have prepared this summary report to give a brief overview of the Retirement System and how it operates. However, a summary cannot cover all the details of the System, any applicable collective bargaining agreements, and the Pension Committee's official rules and regulations. Additional information about the System and its financial operation is available in the treasurer's office.

Your Retirement System's financial objective is to accumulate the assets necessary to pay the promised benefits in an orderly manner. To accomplish this, contribution rates are established in a manner that is designed to keep those rates approximately level as a percentage of payroll from year to year. Contribution levels are expressed in terms of percents of the Township's active member payroll, and provide for the payment of the required employer contribution in compliance with Section 20m of Michigan Public Act 314 of 1965 as amended.

To determine the appropriate Employer contribution level for the next year and to gauge how the System's funding is meeting this fundamental objective, an independent firm of actuaries and employee benefit consultants, Gabriel, Roeder, Smith & Company, conducts annual actuarial valuations.

These valuations are based on your System's past experience, information about current participation and financial markets, and assumptions concerning the System's future demographic and economic activity. The results of the December 31, 2012 valuation, based on the establish funding objective, are summarized in this report.

### Actuary's Opinion

It is the actuary's opinion that the Retirement System is in sound financial condition in accordance with the actuarial principles of level dollar financing presuming continued timely receipt of contributions.

**Summary Annual Report - December 31, 2012**

**Brief Summary of Benefit Provisions**

**Compensation**

Covered compensation includes base pay plus longevity pay (Overtime is included for Crime Scene Investigators).

**Participation**

Full-time employees of the township not covered by the Act 345 plan participate in WTERS except firefighters. However, members hired after the dates below are not eligible to participate and are, instead, covered by a separate defined contribution plan.

<b>Members of</b>	<b>Hire Date</b>
Mgmt / Elected	1/1/2005
Court	1/1/2005
Dispatch	7/1/2006
Teamster	7/1/2006

**Deferred Retirement Option Program (DROP)**

Employees in the Dispatch Union are eligible to participate in the DROP.

Effective January 1, 2008, any member of the Waterford Township Dispatchers Association hired on or before June 30, 2006 may participate in the DROP after attaining the minimum requirements for a normal service retirement. A monthly amount equal to the amount that would have been paid had the member retired and current member contributions accumulate in a DROP account. The account is credited with the system's prior calendar year's market rate of return (but not greater than 4% interest) each year. Additions cease at the earlier of 5 years of DROP participation or separation from service, although interest on the DROP account will continue to accrue during such time. Participants may continue in covered employment after 5 years of participation or until their 33rd year of service, but do not accumulate additional service credit. Upon actual retirement the member may receive the DROP account balance in the form of a lump sum or as an additional annuity. Member contributions continue during the DROP period. Upon exit from the DROP, the original monthly amount established upon entry in the DROP continues in addition to any other benefits or adjustments. Member contributions made during the DROP period are added to the DROP account.
