Medical Marihuana
Facility Protected
Location Map

Disclaimer

This Map shows the Protected Properties described in Section 10-299(a)(1) of the Medical Marihuana Facility Licensing Ordinance according to Township Zoning Official records and does not relieve an Applicant for a Medical Marihuana Facility License from independently determining that a proposed location for such a Facility is separated from Protected Properties as described in that Ordinance by a public street with at least 5 paved motor vehicle lanes or by at least 750 feet for Grower Facilities and 500 feet for Provisioning Center, Safety Compliance, Processor, and Secure Transporter Facilities.

The separation distances of 750 and 500 feet are the shortest distance measured along centerlines of public streets between property or zoning lines, which Applicants may confirm by requesting a Township Zoning Official certification before filing an Application. A fee of \$80.00, or other amount established by the Township Board of Trustees, is payable for processing and responding to such requests.

Some Religious and Educational Protected Locations may include other types of protected facilities that are not shown on this Map.
